I heard about Cyclone Crew through _____ Forum Name If Applicable: _____

Lights to be tinted:

I am sending the above listed tail lights to Cyclone Crew Customs (CCC) to be tinted. I am fully aware that these lights will be for off road & show purposes only and may not be legal for street use in my state. I hereby release CCC of any and all legal ramifications encountered from the use of these lights.

Signed: _____ Dated: _____

Please inspect your lights prior to shipping for chips, cracks, or seal issues. CCC will not be held liable for any lights that are damaged upon receipt from/to any party. If your lights arrive to us in a manner that cannot be tinted you will be notified immediately.

Shipping Information

Cyclone Crew Customs
322 Oak Street
Auburndale, FL 33823

Please note below any special instructions you may have along with your tinting preference. You may have your lights only slightly tinted which would provide the most light output. Or you can have them heavily tinted which usually requires you to upgrade to a LED style bulb for maximum visibility. Think of it as stages. Stage One would be red with a smoked look or a 35 – 50% window tint, Stage Two would be like a 15 – 20% window tint and Stage Three is a Limo Tint.

Special Instructions:
